

Red Tail Golf Club plans to implement the following measures to its golf course for play. These measures were developed in conjunction with the **NCGOA** (National Golf Course Owner's Association), align with the **CDC** (Center for Disease Control and Prevention's) "social distancing" and sanitation practices, along with the guidelines set forth by then State of Illinois.

RedTail will:

- Golfers will pay in advance online or over the phone with a credit card. Walking only will be allowed, NO CARTS. Players will check in at the snack/bar service window behind the clubhouse.
- Recommend all customers update credit card information on file and services DIRECTLY with the club via PHONE during the social distancing period.
- Place appropriate signage on the front door of clubhouse entries briefly outlining the social distancing guidelines in place.
- Only the Golf Course will be open. The Clubhouse, Pro Shop and Driving Range will be closed. No food service will be available.
- Increase our tee time intervals to spread players out on the course.
- Direct players to leave the pin in the cup at all times. We will "raise" the putting cup above ground level on all open courses to avoid golfers having to touch the flagsticks or get their ball out of the hole by hand.
- Follow all guidance to not exceed gathering limits established by local and state authorities.
- Remove bulk scorecard, pencil and tee holders from starter areas. On both 1 and 10 tees.
- Provide clear professional signage informing guests of operational changes and encourage recommended sanitation practices.
- Update website to indicate we are implementing a "Park and Play" program, for the time being.
